

Market Goat

4-H Project Newsletter

Welcome to the 4-H Market Goat Project! This newsletter will give you an overview of the Market Goat Project, answer some of your questions concerning expectations of the project and provide you with project ideas and some resources. Project newsletters are an excellent reference to keep on hand to refer to throughout the year. Enjoy your year in the Market Goat project and when working on your project, remember to "Learn to do by Doing." If you have any questions, please contact your Regional Program Coordinator (RPC).

The Market Goat Project was developed to educate the 4-H member about raising, fitting, showing and the sale of their animal.

The Market Goat Project is where you, the member, present a high-quality finished product for sale. It is your responsibility to search for buyers, to promote your product and to explain to potential buyers why it would be beneficial to purchase your animal!

WHO CAN REGISTER?

Any member who has successfully completed two years or more in the Goat Project may register in the Market Goat Project.

Members in the Market Goat Project must also complete the 4-H Goat Project for the current 4-H year. Also, members must show their own registered 4-H animals and market animals at Achievement Day.

HOW DO I APPLY?

Members need to register in the Market Goat Project with their club and complete the attached application and send it to 4-H Nova Scotia by May 31st of the current year to the address as noted on the application form. Remember, the 4-H Nova Scotia Market Committee is very strict on this deadline and it is your responsibility to follow up to make sure your application has been received by the deadline.

ACHIEVEMENT DAY REQUIREMENTS

The project work requirement for the Market Goat Project is a showmanship class and record sheet. The Market Goat Project is a separate project from the Goat Project. 4-H members must show their own market goat at Achievement Day to complete the project. Please remember that market animals may not be used in regular showmanship classes.

The dress code for Market Goat is a white shirt and white or black pants. Hard-soled boots are encouraged. A tie is optional. Members can wear sun-safety hats when showing livestock in an outdoor area.

Your record sheet should be started when the goat was born or purchased in the spring.

Please note, members in the Market Goat Project judge the same four animals as the Goat Project.

CONFORMATION

Conformation is not an Achievement Day requirement.

SPECIFIC MARKET GOAT RULES

- All goats participating must be properly castrated with no cords or testicles evident or be female.
- If applicable, all goats must have a Canadian National Goat Federation ID tag
- Goats must be clean and well-presented but do not have to be clipped. All goats must be dehorned
- Members must have completed two years in the Goat Project to be eligible for this project and must be enrolled in the Goat Project to do market goat
- A member can show a chevon in the Goat Project Chevon Section; as well as a Market Goat in the Market Goat Project, if eligible. Registering and exhibiting in both the Chevon Goat Class and the Market Goat Class would require two (2) separate animals.

Please note that the National Farm Animal Code of Practice should be followed when housing animals for 4-H events.

These standards can be found at: <http://www.nfacc.ca/>

MARKET LIVESTOCK PROJECT MEETING IDEAS

Your project meetings may be included in the regular livestock project meetings. Several of these ideas may add some variety to your meetings, especially if many project members are experienced.

- Judge a class of carcass or meat cuts. An excellent resource is your local abattoir owner, grader and grocery meat manager.
- Tour a local abattoir, grocery meat department or rendering plant.
- Listen to a presentation from a local representative of the Nova Scotia Beef Producers, Sheep Producer, Goat Producer or Poultry Producer about their marketing of product, problems and concerns.

CONTAGIOUS/INFECTIOUS DISEASE & QUARANTINE

4-H members, leaders, parents and livestock owners are reminded that 4-H Achievement Days and shows are showcases for the 4-H program, and the agricultural industry in this province. They are reminded that infectious diseases can be transmitted during transport, as well as at the show. As such, it is strongly recommended for the protection of the public, participants, and the animals at the show, that animals having or showing signs of infectious diseases not be brought to shows. As well, livestock exhibitors and owners must understand that in attending 4-H Shows, there is a risk of their animal contracting disease regardless of the best efforts of all involved.

If you suspect that your animal has a contagious/infectious disease, please contact your local vet immediately and learn more about the consequences, treatment, and transmission of the disease.

A brochure providing additional information on "Infectious and Contagious Diseases Affecting 4-H Livestock" is available. If you wish to receive a copy by mail or email, please contact your RPC for this information. It contains important information for all livestock members on this topic and will be critical to review with 4-H Clubs, livestock owners, and your local veterinarian when making decisions about attending 4-H achievement days and shows.

ANIMAL MOVEMENT REPORTING – Regulations around moving animals to and from Fairs, Exhibitions, Achievement Days, Pro Show and other events are changing. The Canadian Food Inspection Agency is re-writing the regulations around the identification of animals and how livestock owners report moving animals on and off the farm. **The new regulations are expected in 2018**, and will apply to cattle, sheep, and goats. These animals will require individual animal ID tags. Those tag numbers in turn will be used in reporting the movements of animals. Tag numbers are to be reported by the owner/operator of a premise when the animals enter, and then by the farmer/owner when the animals are brought back to the farm or where they are housed.

MOVEMENT DOCUMENT – A Movement Document is to travel with the animals. This document will record the departure premise and destination premise, as well as the quantity of livestock being transported. These documents will be made available by CFIA once the regulation changes come into effect.

There are three things 4-H members can do to prepare for these changes.

1. **Identify your livestock premises** by applying for or confirming a premises identification (PID) number with the Nova Scotia Department of Agriculture. www.novascotia.ca/agri/pid
2. **Confirm or set up a Canadian Livestock Tracking System (CLTS) database account** at <http://www.clia.livestockid.ca> with Canadian Cattle Identification Agency (CCIA) by toll-free telephone at **1-877-909-2333** or email: info@canadaid.ca **CLTS MOBO** - a free app to submit animal movement events **quickly** and **easily** to your CLTS database account using a mobile device
3. **Voluntarily report receipt (move in) event data** to your CLTS database account for livestock arriving at your livestock premises using the individual animal identification, within seven days of receipt.

The NS Department of Agriculture has a Premise Identification Office that can provide more information and assistance with Premises ID (PID) applications. The phone number is 902-956-2707 and email NSPID@novascotia.ca
