

Online Giant Vegetable Competition

This is an open competition for all 4-H members.

The 2020 giant vegetable is the **Cucumber (any variety)**.

The **longest cucumber** will be judged on length as measured from top to bottom of the longest side excluding the stem.

All vegetables should be displayed as per vegetable standards found in the Horticulture newsletter. For cucumber, “Cut cucumbers from the vine, retaining a small piece of the stem on the fruit. Trim the stems neatly to about 1 cm. Make sure the cucumbers are clean. Use water and a soft sponge to remove soil, being careful not to bruise them.” The Horticulture newsletter states that the vine should be intact but will not be measured.

Measurement

To measure your giant vegetable, please take a measuring tape and lay it on the longest side of the cucumber. The measuring tape must start at the end of the cucumber and will be measured to the top excluding the stem.

Competition Entry

Take a photo of your cucumber with the measuring tape clearly visible in the photo. Send in a photo of your cucumber along with your name, 4-H age, club and cucumber length to info@4hnovascotia.ca. The top three Junior and Senior entries will receive a certificate and medal. All participating cloverbuds will receive a participation certificate.

The deadline is October 2, 2020.
